# WAGE RATES INDEXES : JULY 1974 (PRELIMINARY STATEMENT)

## MAIN FEATURES

In the twelve months ended July 1974 weighted average minimum weekly wage rates for Australia increased by 27.3 per cent to \$95.28 a week for adult males and by 39.2 per cent to \$82.64 a week for adult females.

## EXPLANATORY NOTES

This statement contains figures of weighted average minimum weekly and hourly wage rates and index numbers for adult males and adult females for July 1974 and corresponding figures for some earlier months. More information on these statistics will appear later in the monthly bulletin *Wage Rates and Earnings* (Reference No. 6.16) which also contains explanatory notes covering definitions, scope of the statistics, etc.

2. The wage rates used in the compilation of the indexes are the lowest rates for a full week's work (excluding overtime) prescribed for particular occupations in awards or determinations of Federal or

State industrial authorities; in collective agreements registered with these authorities; or in unregistered collective agreements where these are dominant in particular industries. Because the indexes are designed to measure movements in prescribed minimum rates of *wages* as distinct from *salaries*, those awards, etc. which relate solely or mainly to salary earners are excluded. Because of delays in the receipt of notification of changes in wage rates as well as retrospective changes to rates, figures for July 1973 and subsequent months are subject to revision. As such revisions are made they are published in the normal monthly tables of this statement.

3. The indexes are designed to measure trends in wage rates in current awards, etc. excluding the effects of changes in the relative importance of industries, awards and occupations. The weighted average wage rates shown in these tables are therefore indexes expressed in money terms, and do not purport to be actual current averages. Similarly, neither these weighted average wage rates nor the corresponding index numbers measure the relative levels of average current wage rates as between States or industries.
